

Needs of the Lehi Historical Archives

Possibilities for Eagle Project to meet these needs

The Lehi City Archives have just been established. The base document of the Archives was the collection of historical photographs and documents gathered by the late Scouter and Historian Richard Van Wagoner. He was a deaf scout, but didn't let that stand in his way. As a scout he received every merit badge available at the time. He documented and wrote about Lehi History. He wrote the current history of Lehi City. His work needs to be carried on by the Scouts of Lehi.

Section One-Display Tributes to Lehi Needs of the Archives

The Lehi City Archives are asked to help provide displays on the history of Lehi for events and other activities of Lehi City. We have a need to expand our diplays and portable display cases of Lehi History. Recently an Eagle Scout built and assembled display unit dedicated to Hester Rippy and her starting the Lehi Rippy Literacy Center. Another Scout followed that up with a display case of memorabilia of the 100 years of Scouting in the LDS Church and in Lehi. These are portable cases that can be moved different places to commemorate the history of Lehi. We are so pleased with the efforts of these fine young men and their leadership projects.

We had a great need to expand these Display tributes. The Scout and his team are not told exactly how to do the project, but are compelled to come

up with a play to complete a tribute with the appropriate items and wood cases to display these items.

The projects are as follows:
